Summary of Key Successes and Activities:

Israel:

The Board and We Believe in Israel jointly hosted over 50 delegates from 26 pro-Israel organisations from across the UK and the Republic of Ireland.

The Board's, JLC's and London Jewish Forum's first ever Jewish Community Seminar for local councillors drew over forty new councillors to the Board of Deputies for a five hour introduction to our community's most pressing issues, including Israel.

The Board of Deputies, alongside the JLC and CST, took part in a meeting with the BBC where the concerns of the Jewish community over reporting of Operation Protective Edge and the recent increase in antisemitism were raised. Issues discussed included the pressuring and intimidation of journalists by Hamas and, the use of casualty figures and information provided by Hamas, as well as the choice of spokespeople and how certain figures were introduced as representatives of the Jewish community in Britain.

Antisemitism:

Through its close contacts with MP Mike Freer, Vice-chair of the APPG on British Jews, the Board communicated its concerns over the sharp rise in antisemitism to the Home Secretary Theresa May, who has remarked: "It is truly shocking the extent to which we've seen antisemitism – verbal, physical, online – in recent weeks. This is not something that should be tolerated."

The Board, along with the CST and JLC will hold a meeting with Theresa May in due course to discuss the measures to be taken.

Anti-BDS Activity:

The Board has been leading the fight against the Boycott, Divestment and Sanctions (BDS) campaign against Israel. After hearing that Sainsbury's had removed Kosher products from display due to anti-Israel protests, President Vivian Wineman and Vice President Alex Brummer made direct representations to the Chairman of Sainsbury's Board of Directors.

Extensive media coverage, including an opinion piece by Vice-President Jonathan Arkush in industry magazine, *The Grocer*, along with a boycott organised by the Board led to Sainsbury's issuing a statement that similar actions would not be taken again.

The Board publically criticised the Tricycle's decision to refuse to host the UK Jewish Film Festival over its ties to the Israeli Embassy, with Vice President Jonathan Arkush appearing on media outlets to condemn the theatre's decision. 7 3

Government:

The Board has also written in support of the Prime Minister and the (former and new) Foreign Secretaries on a number of occasions. The letters have thanked them for their strong public support of Israel's right to self-defence as well as the UK's role in the positive EU Council's Middle East Conclusions which called for the disarmament of Hamas and reiterated the EU's role in supporting a two-state solution. Some of the letters can be seen [here](#).

Throughout Operation Protective Edge, the Board worked closely with *We Believe in Israel* and other pro-Israel groups to maximise the letters being sent to Members of Parliament.

Israel Related Activities:

Parliament:

1. Meeting with the Home Secretary:

Following the Board's letter to the British Home Secretary Theresa May and our regular contact with local MP Mike Freer over the increasing threat of Antisemitism in the UK, Mr Freer and colleagues met with Ms May on the 8th September, communicating the Jewish community's concerns with the recent spike in antisemitic incidences in the UK. Mr Freer's blog about the meeting can be found [here](#).

Following this meeting, Theresa May said "It is truly shocking the extent to which we've seen antisemitism – verbal, physical, online – in recent weeks. This is not something that should be tolerated."

The Board, alongside other communal organisations, will subsequently be meeting with Theresa May in the near future.

2. MP Letter writing:

Throughout Operation Protective Edge, the Board has been working closely with *We Believe in Israel* and other pro-Israel groups from across the country to maximise grassroots activities in support of Israel at this time. This has included coordination with other faiths.

MPs tell us that their perception of their constituents' opinions on the situation in Israel is heavily influenced by the number of e-mails and letters they receive, therefore the Board and other pro-Israel organisations have made letter writing an essential element of the grassroots campaign.

The campaign continues and we urge you to tell your local MP that you are standing with Israel against the Hamas rocket attacks by [signing this petition](#).

E-mails in particular have even more impact if you write one in your own words to your local MP. You can find your MP and their contact details [here](#).

If you require any assistance with this, please contact Steven Jaffe on steven.jaffe@bod.org.uk or Joseph Moses on joseph.moses@bod.org.uk

3. Zionist Federation and Christian Friends of Israel Emergency Parliamentary Lobby

The Board of Deputies President and Chief Executive, alongside several members of the Public Affairs team supported the Zionist Federation and Christian Friends of Israel's Emergency Lobby of Parliament on the 10th September.

The meeting was highly successful, with attendees speaking to a number of MPs about a variety of issues in support of, and relating to, Israel.

4. Letter to Vince Cable MP:

The Board has written to Vince Cable regarding the proposed revocation of 12 British export Licences to Israel, voicing concern at the double standards surrounding this action whilst explaining the impact this could have on incentivising Hamas to commit further attacks on Israel. The letter can be found [here](#).

5. Scottish Councils/establishments flying the Palestinian flag:

The Board has issued a strong statement condemning the hypocrisy of Glasgow City Council's decision to fly a Palestinian flag. The publicity generated resulted in a Fortune 500 company pulling out its 600 strong US delegation of businessmen and women from the event.

This story was reported on in the Jewish Chronicle and can be seen [here](#).

The Board also wrote to Glasgow City Council, strongly condemning Hamas.

Moreover, the Board protested against the flying of the Palestinian flag in Edinburgh and in Silverburn and St.Enochs shopping centres.

6. George Galloway MP:

The Board was pleased to note that the representations it made together with others to the police were and that George Galloway was questioned for his odious remarks in which he declared Bradford an "Israeli free zone".heard.

Vice President Jonathan Arkush's comment on Galloway's behaviour was quoted by BBC news [here](#).

7. David Ward MP:

David Ward, Bradford East's Liberal Democrat MP tweeted "If I lived in Gaza would I fire a rocket? – Probably yes"

The Board immediately raised concerns with the Liberal Democrat Chief Whip through Don Foster and various media outlets including twitter.

President Vivian Wineman also appeared on BBC London 94.9 condemning Ward on his words and his continuous actions.

Ward later issued an inadequate apology, which can be found [here](#), and the Liberal Democrats decided against formal proceedings.

The Board has released a press statement condemning inaction of the Liberal Democrats which can be found [here](#).

8. John Prescott MP:

The Board alongside the JLC wrote to Lord Bassam the Chief Labour Lord Whip regarding Lord Prescott's Daily Mirror article in which he compared Gaza to a ghetto and implied that Israel should know better because of the Jewish experience in the Holocaust. Lord Prescott's article can be viewed [here](#).

The letter reminded Lord Bassam that, "as a high profile Labour Peer, he has a duty to respect community cohesion, not to contribute to its decline. Through his remarks, Lord Prescott has trivialised the Holocaust, the most painful memory in Jewish history, and will undoubtedly encourage others to use such language."

The Board asked deputies to vote in the Daily Mirror online poll stating whether they agreed with Lord Prescott's article. By the end of the poll, a significant majority of respondents rejected Prescott's views. This importantly demonstrates the significance of efforts by all members of the community to support Israel and reject repugnant anti-Israel hostility.

The Board's letter to the Labour Whip in the Lords, which received [national media coverage](#), can be viewed [here](#).

9. British Consul General:

The Board has made representations to the Foreign and Commonwealth Office in regards to the British Consul General of Jerusalem wearing a scarf donning the words "Free Palestine" next to a map showing all of Israel, the West Bank and Gaza, in blatant disregard of the UK government policy of supporting a 2 state solution.

The statement can be found [here](#).

10. Senior Government:

The Board has written in support of the Prime Minister and both the former Foreign Secretary William Hague and current Foreign Secretary Phillip Hammond on a number of occasions during Operation Protective Edge. The letters have thanked them for their strong public support of Israel's right to self-defence as well as the UK's role in the EU Council's Middle East Conclusions which called for the disarmament of Hamas and reiteration of support for a two-state solution. Some of the letters can be seen [here](#).

Following co-ordinated action on publicising the recent increase in antisemitic incidents, it is also noteworthy that over the past week several Cabinet Ministers have publicly condemned antisemitism.

The Board as well as other communal groups are continuously monitoring and acting on the situation with the various Friends of Israel groups.

BDS and Delegitimation:

During times of crises in Israel, there is an increased threat of Boycott, Divestment and Sanctions (BDS). The Board is one of the Co-ordinators of the Fair Play Campaign Group (FPCG) with the JLC and together we lead on responding to Boycott Issues. The wider FPCG is made up of Israel facing organisations.

In the past few weeks in response to Operation Protective Edge, boycott campaigns targeting Israeli goods and culture have intensified. We are fighting cultural boycotts which also discriminate more widely against Jews - a success was won with the Tricycle Theatre overturning their original decision not to stage the Jewish Film Festival due to Israeli Embassy funding. We will resolutely oppose the politicisation of British Jewish cultural life, as this will only lead to a sense that Jewish life is being curtailed by a misguided attempt to hold us to account over our relationship with Israel. The arts should be about freedom of artistic expression, not its curtailment based on perceptions of foreign policies. The Board takes attacks such as that on the Israeli dance ensemble due to perform in Edinburgh very seriously, and has made the appropriate representations.

The Chief executives of the JLC and the Board have met with the National Retail Association, and have scheduled meetings with senior staff at Tesco and Sainsbury's to confirm the respective organisations' formal stances towards the BDS movement.

The Board and FPCG have continued to make press statements on the issue.

We have spoken with many retailers being targeted by anti-Israel protesters to ensure kosher products remain on sale and neither customers nor shop workers face intimidation.

Moreover, primarily through Board staff (Steven Jaffe and Joseph Moses), the Board has been speaking to concerned members of the public regarding a number of related issues.

1. Southampton Israeli lecture Boycott

Following successful protests by the Palestine Solidarity Campaign to stop a lecture being given by Israeli Professor Mark Auslander on the subject of optical sensors and their use in healthcare, Board Vice President, Jonathan Arkush wrote to the Vice Chancellor of the university, Professor Nutbeam, voicing the Jewish community's strong concerns.

2. Local Councils:

Several local councils have flown the Palestinian flag citing their solidarity with Gaza.

In response to this the Board has issued statements criticising these councils, urging them to promote community cohesion and not single-sided narratives. This has been covered in the [Daily Mail](#) and the [Independent](#).

Vice President Jonathan Arkush has written to Tower Hamlets in response to their decision to raise the Palestinian flag, and has also discussed the issue on Vanessa Feltz's BBC London 94.9 show and on BBC London 94.9 on 31st July.

3. Tricycle Theatre:

The Board, together with the JLC, welcomed the U-turn by the Tricycle Theatre to re-invite the UK Jewish Film Festival back to their cinema on the same terms as in previous years.

The Board publicly criticised the Tricycle's decision and participated in the protests outside the theatre. During these protests, Vice President Jonathan Arkush spoke on LBC radio, highlighting the discriminatory nature of the Tricycle's decision, and how it had the effect of asking UK Jews to disavow Israel. The Board was also quoted on a number of occasions in the national press, including the [Huffington Post](#), and the [Jewish Chronicle](#).

The Board and the JLC jointly wrote to the Minister for Culture, Media and Sport raising deep concern at what had initially occurred.

The joint statement from the UKJFF and Tricycle Theatre can be viewed [here](#).

Events:

1. Israel activist meeting:

4. Sainsbury's Buycott:

After hearing news of the Holborn branch of Sainsbury's decision to remove kosher produce in the wake of anti-Israel protests outside the shop, the Board contacted the store manager.

The manager gave his assurances that this was not company policy, and merely a decision taken by the duty manager at the time to prevent BDS protestors from targeting staff and throwing around food as they had done at a Manchester branch of Tesco previously.

The reports that a staff member responded to a customer asking why the kosher produce had been removed by saying "because we support a free Gaza" were not denied, and the manager promised that this was due to naivety, rather than policy.

President Vivian Wineman and Vice President Alex Brummer made direct representations to the Chair of Sainsbury's, voicing the concerns of the British Jewish community.

Vice-President, Jonathan Arkush wrote an editorial in the leading publication for food retailers, 'The Grocer', entitled "Sainsbury's Holborn should not feel Gaza conflict pressure" which can be found [here](#).

On a grassroots level, The Board organised a buycott, pictured below, which was reported on by the Jewish Chronicle, and can be found [here](#).

In addition to hearing from experts in the field, Edwin participated in highly relevant workshops interacting with government, defence and police officials who deal with terrorism on a daily basis.

Edwin escorted a Yazidi leader, Dr. Mirza Dinnay to the conference who gave a deeply moving presentation on the suffering his people are facing. He informed the conference of the great risk he chose to come to Israel, because in his opinion the Jewish nation would understand best the current genocide taking place on his community.

6. Kedem Buycott:

The Board's President Vivian Wineman went to Manchester Kedem in defiance of the BDS protests outside, purchasing a gift in solidarity with the store and pro-Israel activists. On his return Vivian launched a buycott, urging Deputies and their constituents to buy from Kedem in their hour of need.

The charity works to promote cross-communal dialogue and activity between Israel's Jewish and Arab residents, enhancing development and educational opportunities.

The breakfast briefing, pictured below, was highly informative and provided an insight into the advances in Arab-Jewish relations in Israel, as well as highlighting the areas where improvements must be made.

10. London Rally:

The Board worked closely with the Zionist Federation, participating in their rally in support of Israel on 21st July. The event, which was attended by an estimated 5000 people, was addressed by the Board's President Vivian Wineman, who stated that the Jewish community must promote "peace and security".

11. Breakfast with former Mayor of Sderot, David Bouskila:

The event, co-hosted by the Board and the JNF, was particularly pertinent during the immensely difficult time for the residents of Southern Israel. The room was filled to capacity, with several journalists present. Mr Bouskila spoke about the development of Sderot, and Israeli Government's investment in bomb shelters and missile defence-systems. Mr Bouskila ended the event by stating that one day he hopes that there will be a political solution that will better the lives of all.

12. WJC Solidarity Mission:

Vice-Chair of the International Division Edwin Shuker represented the Board as part of a solidarity mission that travelled to the south of Israel to meet with Israelis hit by Hamas rocket attacks. President Shimon Peres, WJC President Ronald Lauder and the other members the 78-strong WJC delegation paid a visit to Kibbutz Zikim near the Gaza Strip. Further details can be read [here](#).

UK Antisemitism:

The Board has been speaking to the Community Security Trust (CST) on a daily basis regarding antisemitic incidences. The CST has been leading the community's response in close co-operation with the police, government and the media. The Board have offered support where needed, and have released strong statements condemning the rise in antisemitism at this time.

There has predictably been a spike in antisemitic incidences since the beginning of Operation Protective Edge, and as a result, the month of July has been the most antisemitic since records began, with a total of 302 incidents recorded.

In the first six-months of 2014 (before Operation Protective Edge) there had already been a 36% increase in antisemitism. To see the CST's full report please click [here](#).

To fight antisemitism effectively, we need allies outside the community. A large number of articles have been published and interviews broadcast. In addition we are meeting the BBC to discuss coverage of the recent Operation and the rise in antisemitism.
